Professional Summary

Environmental & Sustainability Engineer with hands-on experience in **NEOM** infrastructure projects, specializing in ESG compliance, ISO 14001 environmental management systems, and sustainability reporting. Experienced in environmental monitoring, waste management systems, and digital sustainability dashboards, contributing to regulatory compliance, audit readiness, and sustainable development objectives across large-scale infrastructure projects.

Key Achievements

- **Contributed to NEOM's sustainable infrastructure development** by preparing sustainability reports and Envision coversheets, ensuring full environmental compliance aligned with Vision 2030 standards.
 - **Implemented on-site environmental safety protocols** that improved compliance and reduced project waste during construction phases.
 - **Led environmental training and awareness sessions** enhancing contractors' compliance and sustainable behavior.
 - **Developed digital reporting dashboards** integrating GIS and field data to improve audit readiness and transparency.
-

Core Competencies

- Sustainable Construction & Green Building Practices
 - Project Management & Site Supervision
 - Civil & Structural Engineering Works
 - Environmental Management, ESG Compliance & Reporting
 - Health, Safety & Environmental (HSE) Standards
 - Waste & Hazardous Materials Management
 - ISO 14001 & ISO 14064 Implementation
 - Environmental Auditing & Data Analysis
 - Leadership, Communication & Stakeholder Engagement
-

Technical Tools

- **AutoCAD & AutoCAD Structural Detailing** – Design and structural drafting
 - **Microsoft Office Suite (Word, Excel, PowerPoint)** – Reporting and documentation
-

Professional Experience

Sustainability Engineer – Al Rawaf Contracting Company-ESG

NEOM, Saudi Arabia | Sep 2024 – Present

Projects: Design & Build Albada, Day Tank, Magna, and Magna Break Pressure Tank Reservoirs (3 projects under NEOM's Water Sector) | Owner: NEOM | Consultant: Bechtel

- Coordinate environmental and sustainability compliance for NEOM site operations in alignment with NEOM ESG Frameworks and ISO 14001 standards.
- Prepare sustainability reports, coversheets, SMPRs, and compliance documentation ensuring adherence to NEOM environmental requirements.
- Develop and maintain environmental performance tracking systems for key KPIs including waste, energy, water, and air quality.
- Lead site inductions and sustainability awareness sessions to ensure contractor compliance with environmental standards.
- Support Environmental Monitoring Reports (EMRs), audits, incident reporting, and implementation of corrective actions.
- Conduct regular field inspections and collaborate with HSE and construction teams to resolve environmental non-compliance issues.
- Manage environmental deliverables register and integrate GIS data with digital reporting and monitoring tools.
- Drive continuous improvement initiatives through gap analysis, performance dashboards, and sustainability.

- Supervised construction and finishing of multiple residential buildings.
 - Designed and executed foundations, basements, and structural works in the West Horus area.
 - Obtained building permits and ensured compliance with local authority requirements.
-

Education

Bachelor of Civil Engineering

MET Academy, Mansoura, Egypt | Sep 2012 – Jun 2017

- Graduation Project: Material Strength — Grade: Excellent
 - Overall Grade: Good
-

Certifications & Courses

- **LEED GA (LEED Green Associate)** - U.S. Green Building Council (USGBC, Feb 2026)
 - **ENV SP (Envision Sustainability Professional)** - Institute for Sustainable Infrastructure (ISI, Nov 2025)
 - **Mostdam AP (Mostadam for Communities New Design and Buildings)** - Saudi Real Estate Institute (Dec 2025)
 - **Waste Management and Circular Economy** – United Nations Institute for Training and Research (UNITAR, June 2026)
 - **Managing Environmental and Social Performance** - World Bank Group (WBG, June 2026)
 - **Elements of an Environmental & Social Management Systems (ESMS)** - World Bank Group (WBG, June 2026)
 - **GHG PROTOCOL** - Sustainability Reporting Institute (Apr 2026)
 - **CSRD FUNDAMENTALS** - Sustainability Reporting Institute (Apr 2026)
 - **GREEN PROJECT MANAGER GPM-B™** - Charter Center (Nov 2025)
 - **Project Management Energy and Water Projects** - Project Management Institute (PMI, Oct 2025)
 - **Microsoft Outlook & Teams Training** - The Knowledge Academy (UK), 2025
 - **OSH Authorized General Industry Safety and Health** - The American Organization for Science and Technology (Mar 2024)
 - **OSH Authorized Construction Safety and Health** - The American Organization for Science and Technology (Mar 2024)
 - **The General English Course (Pre-Intermediate & Intermediate)** - The American Language Center (Nov 2021 - Apr 2022)
 - **Advanced Technical Office Course** - (Sep-Oct 2019)
 - **Professional Engineer's Site Diploma** – Consultant Eng. Hassan Kandil (Feb-Mar 2019)
-

Memberships & Interests

- Member, **Saudi Council of Engineers (SCE)**
 - Member, **Sustainability Professionals of Saudi Arabia (SPSA)**
 - Holds a valid **Saudi Driving Licence**
